## Performance Score Summary

Each indicator or indicator subpart is scored using a 3-point scale. In some cases, institutions may qualify for an additional 0.5 for achieving a certain level of improvement over past performance. Details by indicator follow on pages 2-4. Additional information on the scoring process can be accessed on-line at [www.che400.state.sc.us/web/publications.htm](http://www.che400.state.sc.us/web/publications.htm) - select the "Performance Funding Workbook." (See pages 4-5.)

## Interpreting Overall Score

Comparing the average score on applicable indicators to the maximum 3.00 possible produces the percentage score shown in the upper right hand corner. Institutions within the same sector whose percentage is in the same range as shown below are considered to be performing at similar levels.

### Scale for Overall Scoring Category

Substantially Exceeds	95% to 100% or 2.85 to 3.00
Exceeds	87% to 94% or 2.60 to 2.84
Achieves	67% to 86% or 2.00 to 2.59
Does Not Achieve	48% to 66% or 1.45 to 1.99
Substantially Does Not Achieve	33% to 47% or 1.00 to 1.44

**"Performance Funding" in SC** began with the ratification of Act 359 of 1996, effective July 1, 1996, which required that the SC Commission on Higher Education (CHE) measure annually each public institution's performance in various areas and allocation state appropriated dollars based on performance. Each year, the CHE in cooperation with institutions and other stakeholders has worked to refine the system implemented in 1996 in an effort to ensure and improve the quality of SC's public colleges and universities so they will be globally competitive. Data and scores for indicators used for purposes of allocating FY 2001-02 dollars follow. Yearly revisions and differences across and within sectors make comparisons across performance years and institutions difficult. **For a better understanding, please see our website at [www.che400.state.sc.us](http://www.che400.state.sc.us) where a detailed guide to the system and measurement (see Performance Funding Workbook, Sept 2000) and data details may be accessed.**

**DATA and SCORING KEY:** Below are performance details for each performance indicator as measured in Performance Year 2000-01, including: the measurement timeframe for this year's performance, historical and current performance data, the standard used in judging current year performance, and subpart and overall indicator scores. In July 2000, the CHE set standards for indicators for similar institutions based on national, regional or state data; data from peer institutions or past institutional performance. For the majority of indicators, performance is judged using a 3-point scale and comparing it to the standard, which is expressed as a range. A score of "2" is awarded if an institution is at or within the range. Performance exceeding the range in a desired direction merits a "3" while performance falling short of the range receives a "1." Additionally, 0.5 points may be added to scores of 1 or 2 for some indicators if performance reaches or exceeds a certain level of improvement over past performance. Performance on other indicators is judged by determining compliance with policies or practices. Compliance is expected and a score of 1 is given for non-analysis of an institutional appeal requesting special consideration. To determine overall performance (summarized on page 1 and at the end of this report): scores displayed for each indicator in the far right column are averaged; the average places the institution in 1 of 5 performance categories; and funding is allocated based on the category, not the individual score or average.
